The Laurel Review says: Jos. "Chicken" Baney whipped the companion of his bosom and grossly abused her, 'tis said, in revenge for which she went to some of the neighbors and told them of the whereabouts of certain bushels of corn and diverse chickens which had mysteriously disappeared from their premises, in which "vanishing act" it appears her lord and master played the leading role. Warrants were issued for Baney's arrest, but when the officers went to his place Monday, he received a "wireless" and disappeared.

RUSHVILLE, IND., SEPT. 28, 1905.

It cost William L. Douglas \$75,000 to make his experiment of being governor of Massachusetts for one year. And a good deal of the reform that he was to bring about still remains to be done.

W. J. Bryan lately remarked that his place in history would be determined by what he had done for the people. Just what he has done for the people, or is likely to do, does not appear. He took up Populism and injected it into the Democratic party for a time, but he did not invent Populism or even silverism; he simply became the advocate of isms that had already been sprung by others. He has not suggested a single new idea. He is eloquent; he is a taking advocate; he can present other men's ideas in a plausible way, but according to his own logic Watson is in advance of him; Debs and others are in advance of him, just as Warner and Weaver and others were in advance of him when he first broke into populism.

The annual waste of forest fires in this country is estimated at \$25,000,000, a small sum in comparison with the annual product, but nevertheless worth thinking about. To a great extent the fires are due to lack of scientific efforts to preserve the timber. It is generally admitted that unless the destruction of forests shall be arrested a timber famine in the future is inevitable. Not very long ago many people of the land regarded our forest experts and outsiders who interested themselves in forest preservation as meddlesome faddists, whose ideas were wholly sentimental. Now eleven States have some form of forest administration, and several colleges are making forestry a special line of study, and in the last five years there has been a large gain in the popular acceptance and application of the principles which govern the proper care and use of wood lands.

Squabble Over Harrison Monument Is Growing Embarrassing.

Indianapolis, Sept. 28.—J. Knox Taylor, supervising architect of the treasury department at Washington, arrived here this morning for a final conference with the Harrison monument commission relative to a suitable location for the proposed shaft in honor of the late ex-president. This controversy has been hanging fire so long that it has come to be embarrassing to the faithful followers of the man to whom honor is to be done. The trouble now is over the base of the monument, which the architects of the new federal building say does not conform to the style of the building, and which they claim will detract from it. They have complained to the treasury department and apparently hold the winning cards, as Mr. Taylor is against the design the commission has adopted and will not permit it to be erected in front of the new federal building.

It would doubtless prove a shock to thousands of Hoosiers to learn that their genuine "Vermont maple syrup" is not the real article, but this seems to be the case according to the preliminary crusade for pure food, the result of which was reported today to the state laboratory of hygiene which is being conducted under the direction of the state board of health. H. E. Barnard, state chemist, said the samples show there is a tremendous amount of adulterated foodstuff on sale. "Ninety per cent of the so-called elder vinegars, as large a percent of vanilla and lemon extracts, are impure; so also the jellies, spices and 'genuine Vermont' maple syrup," he said. He also declared that a big fraud is being practiced in the sale of pure leaf lard, pie fillers, cheese, oils and prepared meats, but he said that some of the packers are showing a disposition to co-operate with the board in bringing about improved conditions.

Senator Hemenway has arrived in Washington to put his son in school and to find a suitable house for the winter, but it is reported that he was astounded at the way real estate agents there run up their prices. Living expenses at Washington seem to be "sky high." The senator will remain in Washington until the latter part of the week, when he will return to his home in Booneville. There has been a rumor going the rounds for some time to the effect that he might attempt to have Congressman James E. Watson of Rushville succeed him as chairman of the house committee on appropriations, but he says that Mr. Watson is not an applicant for the place. He paid him a high compliment by declaring that there is no man in congress better informed on the tariff than Mr. Watson, and he predicted for him a great future on the ways and means committee, of which he is a member.

Report again reaches here from Washington that Captain Harry S. New of this city is to be made chairman of the Republican national committee next week. This will be news in more ways than one, as most politicians thought he already occupied the position. It was announced several months ago that he would succeed Chairman Cortelyou by the latter's appointment, but the appointment has never been fully confirmed. There seems to be no doubt, however, that Captain New will soon be placed in charge of affairs, to serve until the next campaign. He is now here, having recently returned from an all summer's fishing tour to northern Michigan.

Excitement at Gallup.

Gallup, N. M., Sept. 28.—Intense excitement exists here over the assassination at midnight last night of Andrew Casno, a wealthy coal mine owner, who lives near here, and the fatal wounding of his beautiful young wife. The motive for the crime is thought to have been robbery. A posse is now following the trail of men who were seen in the vicinity during the evening.

Collision on C. H. & D.

Connersville, Ind., Sept. 28.—In a rear-end collision between a passenger train and a freight near Glenwood last evening two trainmen and four passengers were hurt, none seriously. The passenger train was piled in a heap and how the passengers escaped being crushed to death seems a miracle. The wreckage caught fire and the four coaches were consumed.

Charged With Horse Stealing.

Petersburg, Ind., Sept. 28.—Alexander Leighty, accused of horse stealing, and who has been in hiding for several months, was arrested on an Evansville & Indianapolis train by City Marshal Masters. Leighty was heavily armed and is a dangerous man, but the marshal had the drop on him, and committed him to jail.

The Other Way Around.

"It seems to me," exclaimed Aunt Rachel, "you two are always quarreling when I come in."

"On the contrary, ma'am!" vociferated the masculine end of the domestic controversy. "You always happen in when we're quarreling!"—Chicago Tribune.

IN THE LIME LIGHT

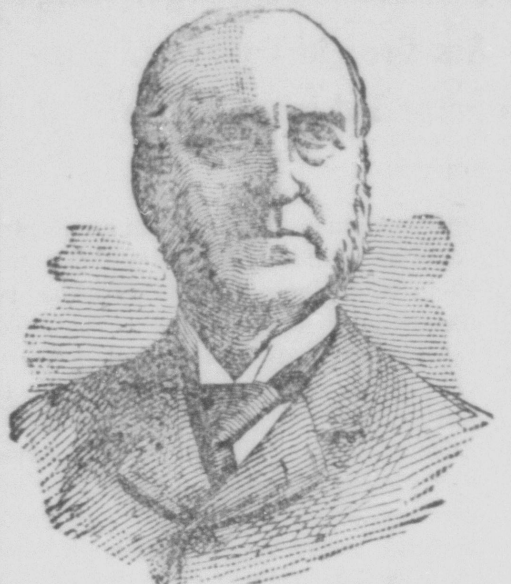

Senator Depew Has at Last Been Brought Into Insurance Hearing.

COMMITTEE CALLS HIM

New York Senator Must Appear in the Investigation of the Equitable's Tangled Affairs.

Statement of His Participation in Syndicate Operations Calls For an Explanation.

New York, Sept. 28.—Wednesday's session of the legislative committee to investigate insurance methods was given over to the matter of syndicate transactions of the Equitable Life Assurance Society. Henry R. Winthrop, assistant secretary and financial manager of the society, was again on the witness stand and many of his statements were accompanied by type-written documents giving the various

SENATOR DEPEW.

transactions in detail. It was brought out that in one of these syndicates Senator Depew was a participant to the extent of \$100,000, and the senator was requested to appear before the committee.

Mr. Winthrop was unable to find where a record of the profits from a number of the syndicate transactions was made, and expert accountants now at work on the books of the society are expected to unearth these later.

The witness detailed a number of loans to the Equitable Trust and Mercantile Trust companies, as well as the sharing of these companies in syndicate transactions with the society.

Late in the day Henry Greaves, who was a clerk for George H. Squire, formerly a member of the finance committee, was called to supply some information regarding the "George H. Squire Trustee" account, and from him it was learned that there were a number of these accounts. There was, beside the "George H. Squire Trustee" account, the "Marcellus Hartley Trustee" account, and another, the "J. W. Alexander Trustee" account. Mr. Greaves produced the bank-book of the Squire account, and by means of it Mr. Hughes tried to trace amounts that would correspond to profits to this account; but the witness could not remember the items of the amounts deposited. Mr. Greaves was still on the stand when the session adjourned for the day.

Mr. Greaves, however, gave away temporarily to Mr. Winthrop, while Mr. Hughes queried further regarding syndicates. Mr. Winthrop was asked to furnish a list of the individual participants in syndicates, and said that President Morton was preparing such a statement. Mr. Winthrop said he had no positive information of the "James H. Hyde and Associates" syndicate, but he expects to have. Mr. Winthrop said that in the Philadelphia, Baltimore & Washington and Long Island 4s syndicate, managed by Kuhn, Loeb & Co., there were two participations, one of \$500,000, the other of \$100,000. The society derived profits of \$2,386 on the \$100,000, while J. W. Alexander, J. H. Hyde, G. H. Squire and W. H. McIntyre divided the profits on the \$500,000. The Equitable put up \$218,100. It has received no interest, neither has the money been returned, and when asked if the matter had been called to the attention of these gentlemen, Mr. Winthrop said: "It will be."

Jacob H. Schiff of Kuhn, Loeb & Co., has been subpoenaed, and it is expected he will appear to testify tomorrow. Mr. Schiff will be asked about the transactions of his firm with the New York Life Insurance company as well as with the Equitable Life Assurance Society.

Boston Still Puzzled.

Boston, Sept. 28.—After nearly a week of the most untiring and diligent investigation by the police departments of this city, the state and of Winthrop, the identity of the unknown woman, part of whose dismembered body was found in a dress-suit case in the waters of Winthrop bay, remains unknown and no positive clue to the perpetrator of the crime has been discovered.

Clearing the Waterway.

Port Said, Sept. 28.—The blowing up of the British steamer Chatham, which was sunk in the canal Sept. 6, owing to the fact that she was on fire and that the flames threatened to reach a quantity of dynamite which formed a part of her cargo, took place at 9 o'clock this morning.

Packers Receive a Rebuff in Preliminary Skirmish.

Chicago, Sept. 28.—A victory was scored by United States District Attorney C. B. Morrison in his struggle to bring to a successful finish the prosecution of the meat packers. During the argument against a demurrer filed by Attorney Morrison against the plea in abatement filed some time ago by the defending attorneys, contesting the indictment which charges the various packers and their associates with conspiracy in restraint of trade, the question of the right of the packers to appear in court at the time of the impaneling of the federal grand jury to challenge jurors as they were impaneled was raised and Judge J. Otis Humphrey decided in favor of the government.

SECOND PEACE CONFERENCE

Russia Wants Question Arising Out of War Settled Without Delay.

St. Petersburg, Sept. 28.—It is announced that the Russian representatives abroad were instructed on Sept. 21, in a circular to communicate to the governments to which they are accredited an invitation to a second peace conference at The Hague. They were further directed in the event of acceptance to announce that the Russian government's proposals would be strictly practical, and that the conference would especially and exclusively deal with the serious questions arising out of the late war, which it was essential should be settled without delay.

Austro-Hungary's Difference Rapidly Reaching Critical Point.

A CLASH AT BUDAPEST

Socialists and Adherents of the Coalition Parties Come Together in Front of Royal Hotel.

In the Riot That Followed Half a Hundred Were Injured—The Coalition Manifesto.

Budapest, Hungary, Sept. 28.—Between forty and fifty persons were injured in riots here last evening when Socialists and adherents of the coalition parties, including students, clashed opposite the Royal hotel, and for two hours there were scenes of tremendous excitement. The Royal hotel is the headquarters of the independence club, in which is the council room of the coalition leaders.

The students and other supporters of the coalition had arranged for a gigantic torchlight procession last night, but during the day the Socialists issued inflammatory proclamations calling Socialists and others opposed to the coalition to gather and fight for their rights, which they said the coalition was trying to sidetrack under cover of an alleged affront by the king-emperor to the whole nation. Owing to these proclamations the coalition leaders decided to postpone the torchlight procession, seeking thus to avoid bloodshed.

At 8 o'clock about 1,500 Socialists gathered outside the independence club and announced their intention of entering and tearing down the council room. A large force of police was present and was assisted by 150 prominent citizens. Before the crowd was dispersed many persons were injured.

The committee of the coalitionists has issued a manifesto to the nation in reply to the program submitted to its leaders by the emperor-king. The manifesto declares that some points of his majesty's program are not in conformity with the constitution, referring especially to his contention that the question of the language of command in the Hungarian army must be entirely eliminated from discussion. It is asserted that this is equivalent to the abolition of the nation's right to control its own affairs for which there is no legal authority. The manifesto contains, among other things, a protest against the accusations that Hungary desires to settle the common affairs of the empire without consulting Austria, and continued:

"Such arrogant ideas can only be imputed to Hungary by those who are creating an evil feeling against Hungary in Vienna. We know well enough that every provision of the laws we would enact which may require any co-operation on the part of Austria can only become valid in practice when Austria of her own free will creates a suitable law."

The manifesto in conclusion says: "We desire to conclude a just treaty of commerce with Austria on the basis of an independent customs sphere for both parties. The decision as to whether we shall establish an independent customs sphere or maintain a common fiscal system depends upon the free will of the Hungarian diet. Protests are being made as if the decision of fiscal matters were dependent on an understanding with Austria."

Indicted for Blackmail.

Cleveland, Sept. 28.—The Cuyahoga county grand jury has returned an indictment against Mrs. Minnie Lee of Chicago for attempted blackmail. Governor Myron T. Herrick, J. H. Schumacher, general superintendent of the Pinkerton agency, and Lawrence Destell, guard at the Society for Savings, who threw the Lee woman out of Herrick's office, appeared before the grand jury and gave their testimony, following which a secret indictment was voted.

Land Grabbers Convicted.

Portland, Ore., Sept. 28.—The jury in the case of the United States vs. Congressman J. N. Williamson, Dr. VanGessner, his partner in the livestock business, and Marion R. Biggs, a Prineville (Ore.) lawyer, at 11:05 o'clock last night returned a verdict convicting the defendants of subornation of perjury in securing men to fraudulently locate on government land. The penalty is from \$1,000 to \$10,000 fine and imprisonment not exceeding two years.

Judges Seriously Charged.

Kansas City, Mo., Sept. 28.—Informations have been filed in the criminal court here by County Prosecutor Kimbrell against G. L. Chrisman and Joseph Mercer, judges of the county court, and Edward C. O'Rear, former judge of the county court, charging them with corruption and misconduct in office.

We think the investigation of the Dinwiddie estate will amount to nothing for the people who feathered their nests from that estate were smart enough to kill the goose before they picked it.

A. E. Taylor, assistant State geologist, is in this township and county making a geological investigation of the gravel pits and stone quarries of this township and of the county. SHERRICK SILENT

Deposed Auditor of State Will Not Issue Public Statement.

ON ADVICE OF LAWYER

David E. Sherrick Changes His Mind About Giving People an Advance Story of His Case.

It Is Now Intimated That Others May Be Caught in Grand Jury's Drag Net.

Indianapolis, Sept. 28.—David E. Sherrick, deposed auditor of state, whose defalcation is now being investigated by the Marion county grand jury, has decided, on the advice of his attorney, Addison C. Harris, not to issue a public statement of his side of the case.

"However much I would like to make a statement, personally, I feel that my counsel's advice should be followed in this matter," he said.

A few days ago Sherrick issued a short public statement declaring that he would shortly prepare another fully explaining his position and proving that Governor Hanly's accusation that he lost \$10,000 at the French Lick casino and that he is a gambler and a carouser, are wholly without foundation.

Sherrick feels keenly the sting of the governor's attack, and he fully intended to make a statement, but others besides his attorney urged him not to. He believes, it is said, that he has been persecuted by the governor and that he can prove it to the satisfaction of the public.

The Marion county grand jury has finished its September session and is ready to adjourn. It is learned that it is prepared to return three indictments. No secret was made of one which was against a local prisoner charged with a petty offense, but the deputy prosecutor refused to say who the other two were against. There is but little doubt that one is against Sherrick, and it was rumored that the third indictment may be for one of the men whose name has been prominently connected with the Sherrick case, but the prosecutor refused to say anything about it.

CUBAN CAMPAIGN

Liberals Admit There Is No Way of Defeating Palma.

Havana, Sept. 28.—Jose Miguel Gomez, governor of the province of Santa Clara, who was nominated by the Liberals for the presidency, has resigned his candidacy. In letters to the executive committee of his party he gives the reasons for his action, laying part of the blame on the United States owing to the Platt amendment. Governor Gomez says:

"It is impossible to continue the campaign within the bounds of the law. The government has won a complete and overwhelming victory. With Liberals by the hundreds in the jails and with the rifles of armed forces and even the daggers of hired assassins against unarmed voters, the problem confronting me is whether I should continue to lead my followers to the polls and permit them to become the victims of this sort of treatment. One other road is open, that followed by other nations in analogous circumstances, namely, the right of revolution; but Cuba stands in a peculiar position, as an armed conflict would inevitably bring foreign intervention. Before this was accomplished, however, our material prosperity would run grave danger and property, which is to a great extent, in foreign hands, would be destroyed while the neutral elements would suffer. Therefore I, who had the courage to rebel against Spain, which was one hundred times stronger than Palma's government, decline to accept the responsibility of plunging the country into war, least of all at a time when there might be the slightest suspicion that I had done so to satisfy my personal ambitions for the presidency."

"I am a Cuban soldier. I love order and peace and prefer to leave to my adversaries the somber glory of my triumph along the criminal path where they have slain Cuban liberties. For these reasons I entreat my party to accept this irrevocable resignation."

Senor Zayas, the Liberal candidate for vice president, said that a national convention of the party would probably be called for next Sunday.

THEY CAN'T AGREE

Fusion of Anti-Tammany Forces Is Now Given Up.

New York, Sept. 28.—Five minutes sufficed to dissipate hope of fusion between the Republicans, the Citizens' Union and the Municipal Ownership League on a city ticket when representatives of the three parties met last night and received the report of the conference committee that they were

unable to agree on candidates. When the conference adjourned each of the parties issued a statement setting forth that they had made every effort to accomplish an anti-Tammany combination and throwing the blame of failure on each other.

Jealous of M. Witte's Hit.

St. Petersburg, Sept. 28.—M. Witte is expected to arrive here today. His progress through France and Germany has been watched from here with interest, but nonetheless it has added to the jealousy toward him in certain quarters, which was more or less freely manifested after his success at Portsmouth. The fact that he went to see Emperor William Tuesday enabled his enemies to seize the opportunity to characterize him as a self-advertiser.

Appeal to Armenians.

Paris, Sept. 28.—Prince Sahabeddine, a nephew of the sultan of Turkey, today, in the form of an open letter, issues a stirring appeal to the Ottoman Armenians in which he strongly condemns the throwing of bombs and invites them to join the young Turks in order to obtain civilization in Turkey by enlightened means.

Decision Reserved.

Muncie, Ind., Sept. 28.—The submission of new evidence in the case of Madison county through Auditor Otis Crim, against Cyrus F. Heritage, an ex-treasurer of that county, in which it was originally charged that Heritage was short in his accounts with the county about \$10,000 on leaving office, has been completed in the Delaware county circuit court, where the case was taken on a change of venue. Judge Leffler will render his decision in a few days.

Convicted of Embezzlement.

Muncie, Ind., Sept. 28.—After an industrious life, in which his honesty had never been questioned, Richard Thomas, nearly fifty years old, a representative of the Chicago packing firm of Schwarzschild & Sulzberger, has been found guilty here of embezzling nearly \$1,000 from the firm he represented, and unless the motion for a new trial should be granted, will be given a penitentiary sentence.

Escaped Arrest by Flight.

Montpelier, Ind., Sept. 28.—During a quarrel over a game of cards in Mills's saloon George Lyons was stabbed in the throat by John Vincent, the blade barely missing the jugular vein, and cutting clear through the throat. Lyons nearly bled to death before surgical attention was secured and his condition is serious. Vincent escaped arrest by flight.

TO CATARRH SUFFERERS

Hyomei Guaranteed to Cure by F. B. Johnson or Money Refunded.

The popularity and increase in the sales of Hyomei are unique in the annals of medicine. Such astonishing cures have been made by this remedy that the proprietors have authorized F. B. Johnson & Co. to sell every package of Hyomei under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by F. B. Johnson & Co.

Hyomei is no ordinary remedy. It is the only method of treatment that sends by direct inhalation to the most remote part of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes a permanent and complete cure of catarrh.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her methods of treating diseases of the respiratory organs.

Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all.

If not cured, F. B. Johnson & Co. will refund your money.

In its account of the accident in which Will Dagler, of this city, participated at the Cincinnati races, the Enquirer says: Lady Veach owned and driven by Will Dagler, went over the fence on the back stretch in the 2:10 pace and young Dagler had a narrow escape from being killed. The horse plunged through the fence, tearing away at least 25 feet of the rail and landed in a ditch. Dagler was on his feet in an instant and led Lady Veach to the barn. The young driver is said to be one of the nerviest on the circuit, and horsemen look upon him as the best youngster in the racing game today. He drives Star Patch (2:07½) and other good ones and has made a wonderful record this year, having won twenty races or more. He is the son of William Dagler, Sr., of Rushville, Ind., which town has sent out some of the best known drivers in America.

THIS MAN HAS A CONSCIENCE

Hunts Up Game Warden and Asks to be Arrested for Killing Squirrel.

William White lives at Lewisville, Indiana. He evidently has a conscience that the ordinary man of the world would regard as altogether too sensitive for every day use. A few days ago he went to New Castle and hunted up the game warden, confessing that he had violated the game law and wanted to be arrested and punished. When the official recovered from the shock, occasioned by such information being voluntarily given, White said he had killed a squirrel unlawfully last May and the matter pressed heavily on his mind.

The game warden relieved him by placing him under arrest and taking him before a justice, where, on a plea of guilty, he was fined, with costs, \$30.75. This was paid, when White went away happy. He said he had never been arrested before and the sensation it caused was peculiar and not at all pleasant.

OATS CROP

Indiana's Yield This Year Will Show 19,000,000 Bushels Increase.

According to the reports compiled from the returns of 425 townships assessors over the State the oats crops this year will be about 36 per cent. in excess of the crop last year, the figures of this number of township warranting the estimated crop of about 69,000,000 bushels, as compared with about 50,000,000 bushels last year. This is due both to the increased acreage in oats, 1,981,376 in 1905, and 1,621,114 in 1904, and the increased average an acre, 30.7 in 1904 and 34.7 in 1905.

Returns from 125 townships since the estimate made last Friday show that the average an acre in wheat is 18 instead of 17 bushels, thus bringing the wheat estimate up to about 2,900,000 bushels, more than twice last year's crop. The average of the corn still stands at 41 bushels to the acre, making the total crop about 164,000,000 bushels.
